## Summary

Highly adaptable and detail-oriented security professional turned software engineer well-versed in analyzing user needs and developing software to meet diverse needs. Innovative and technically-astute facilitator of solutions accustomed to working with global teams. Enthusiastic and self motivated learner that is committed to personal development and keeping up with industry trends.

## PROJECTS

- **Benefi:** [Github](#) | [Deployed](#) A full-stack MERN application that utilizes the Benefi API to provide full CRUD functionality.
- Tools used: NodeJs, Express, MongoDB, React
- **Shmack:** [Github](#) | [Deployed](#)
- A full-stack twitter like application with full CRUD. Users can post and delete comments, and edit their profiles.
- Tools used: React JS, Django, Python, PostgreSQL

## SKILLS

**Languages:** JavaScript, HTML, CSS, Python, EJS

**Databases:** PostgreSQL, MongoDB | **Other:** RESTful Routing, JSON API

**Libraries/Frameworks:** React, Express.js, Django, Tailwind, Bootstrap, Flask, Node.js, MongoDB, Mongoose

**Competencies:** Incident Response, Crisis Management, Security Analysis

**Spoken Languages:** Fluent Spanish

## PROFESSIONAL EXPERIENCE

**General Assembly**  
Jr. Software Engineer

New York, New York  
September 2022 – December 2022

- Software Engineering Immersive program that includes over 400 hours of professional training
- Utilized hands-on approach to design and build web applications with full CRUD functionality
- Worked with software development and testing team members to design and develop robust solutions to meet technical requirements for functionality, scalability and performance.
- Installed and configured software applications and tested solutions for functionality.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Exhibited strong technical aptitude and application expertise resulting in optimized performance, continuous improvement recommendations and product innovation.

**Citigroup**  
CSIS Lead Investigative Analyst

New York, New York  
January 2019 – Present

- Served as Citi's strategic intelligence and operational security function across the globe by managing and coordinating operation for five regional command centers
- Supervised daily global command center operations and personnel
